

AEGIX AIM E.R.T. ENHANCED RESPONSE TRAINING

COURSE DESCRIPTION

This course is designed to further enhance the user's knowledge and ability to use the **AEGIX AIM** (Active Incident Management) platform in concert with first responders during crisis situations, as well as managing other less emergent circumstances.

Application of learning objectives will lead the user to be able to swiftly and accurately:

- Initiate **AEGIX AIM** alerts
- Correctly identify themselves as **safe** or **unsafe** according to **AEGIX AIM** guideline usage.
- Communicate critical information via text narrative, images, mapping and other indicators.
- Provide first responders, staff and students accurate and immediate information, allowing each person to best prepare or respond to their individual circumstances.

The instructor will run through scenarios with the users, ensuring they understand all aspects of its use and can take advantage of the information it provides.

The overall intent of the course is that all users understand the correct usage of the **AEGIX AIM** app, work within their pre-designated policies, can manipulate the app under varying circumstances and feel **comfortable** and **confident** in its usage. The instructor can create a custom course for your school. Practice and drills are highly recommended at the conclusion of the training!

Meet the Instructor!

Justin Chapman (Ret. Capt.) served 28 yrs. as a police officer, of which decades were spent working as, with or supervising SRO's. He has been instructing school and law enforcement personnel since 2007, while adjusting some subject matter in an effort to keep up with the changing times and best practices in safety, preparation and response. He has a passion for keeping innocent children and staff safe while empowering them to take action. He is nationally certified by IADLEST as well as a CPTED professional through NICP.
